

PARTICLE

EXPERT SDS Clean plus-8X and max-8X

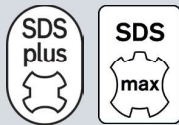

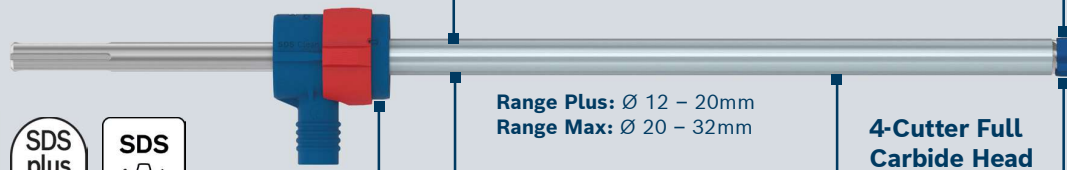

Removable Dust Extractor Pipe

Robust steel pipe is easy to clean if it clogs

Bosch Welding Technology

Highly resistant drill bit connection

Range Plus: Ø 12 – 20mm
Range Max: Ø 20 – 32mm

4-Cutter Full Carbide Head

Punches through reinforced concrete and reduces jamming

PGM Certification

Guarantees the precision of the diameters drilled by the SDS Clean drill bit

Connector SDS Clean

Changing drill bits is easy. Compact design helps save storage space

Certification

Included in BG Bau white list & certification for Würth and Fischer chemical anchors is ongoing

EXPERT M480

1 Protect your health

By removing harmful dust particles as you work, our dust solutions make sure you can breathe easy and work comfortably all day.

3 Protect your accessories

Dust can clog up your accessories and wear them out fast. Save time and money. When you use dust control you make your accessories last even longer.

2 Protect your tools

Dust gets inside your tools, accelerating tool wear and tear. Our dust solutions protect your tools from dust, so you get longer lifetimes and better performance.

4 Achieve compliance

Our dust solutions fulfil established health and safety regulations, and our dust extractors are visibly certified – so you can achieve compliance the easy way.
