NLG Heavy Duty Anchor Choke™

PRODUCT BRIEF / 101494

Product code: 101369

The Heavy Duty Anchor Choke™ wraps quickly around beams, scaffolding and railings to give a secure anchor point for tool lanyards and buckets.

The Heavy Duty Anchor Choke™ is like the rest of the Choke™ family but even bigger and stronger.

Designed to make a fast and secure anchor point for tool lanyards and storage equipment like the Ascent Bucket™, the Anchor Choke™ safely wraps around scaffolding, rails and beams and provides a strong V-Ring for connectors to attach to. The extended length means that it still works with larger beams.

Because of the twin securing arms which can be locked with NLG's approved Tether Tape™, the Anchor Choke™ can also be used to create an attachment point on heavier tools, like breakers, up to 40KG.

INSPECTION

In addition to routine checks prior to each use, all equipment should undergo regular detailed inspection, conducted and recorded by a competent person using the NLG Inspection Checklist. If any part is worn or shows signs of degradation, immediately retire from service. In the event of a drop, quarantine the equipment for thorough inspection.

Specification

- Twin securing arm guards against movement on rails and allows it to be used as a tether point on tools
- Optimised V-Ring design for extreme performance
- Extra high strength webbing delivers ultimate peace of mind
- Wear protector sleeve provides an additional layer of structural protection
- Faster visual inspections with heavy-duty contrast stitching
- Works with Tether Tape™
- Unique serial number for easy identification and tracking
- CE marked
- ANSI/ISEA 121-2018 compliant
- Dynamic load tested and third-party certified (2:1 safety factor)
- Dimensions: 600mm x 25mm (twin arm 150mm)
- Max Load: 40KG (88lbs)

MAX LOAD (SWL)

40KG / 88 LBS

SERIAL NUMBERED

Makes the management of inspection routines and reports easy and traceable

02 / Product

CODE: 101494
 DESCRIPTION: Anchor Choke
 LOAD RATING: 40 KG / 88 LBS

03 / Conformity

The undersigned acting on behalf of [01] above hereby declares that:

The PPE described in [02] is in conformity with the provision and scope of our quality control and testing protocols set out in the PPE Regulation (EU) 2016/425 covering all PPE manufacturing, where such is the case, with the standard of fit for purpose design parameters. The above referred to Personal Protective Equipment [02] is identical to the equipment independently tested and certified by BSTL in accordance with EN 364:1992 test methods.

Dynamic drop performance testing conducted at 2:1 weight safety factor for tool lanyards and tether points. Static strength testing conducted at 5:1 weight safety factor for containers and storage equipment.
