➤ Although the Type AMD is similar in appearance to the Type AW, it should NOT be used in profiles manufactured by Hare Decking.

How to install...

▶ Watch the installation video at www.Lindapter.com

- 1) Pre-assemble the locking plate and wedge (flat surface facing up) onto the threaded rod.
- 2) Insert wedge into the re-entrant channel of the decking, rotate 90°.
- 3) Slide plate up the threaded rod, over the wedge, to lock it in position into the channel.
- 4) Tighten the locknut beneath the plate to hold the assembly in position.

➤ Install the decking fixings after the concrete has been poured and has reached full strength.

➤ If the decking profile is deformed or distorted, do not install the fixing. If in doubt, contact the Technical Support team for advice.
